The representative of the Diamone State Telephone Company, speaking through our columns this week, challenges the correctness of a statement made in a previous issue by a reperter of this paper in regard to the local business over the phone, but while claiming that his company desires it. fails to give any assurance that it is going to do anything to deserve it On the contrary, if we are advised correctly, no improvement in the telephone service of his company in this county, except over the lorg distance phone, is contemplated or may be expected soon, or if at all, at a date too remote to be worthy of the consideration of the present phone bolders. The improvement in the service, so far as we are concerned, if he is reported correctly, is not only not in sight yet, but it may be months before we may expect any change for the better. For aught we know the poles may have to grow upon which the wires are to be strung before we may expect better service. It may be, though, that the representative of the Diamond State Company can enlighten us in the matter and long suffering phone holders of his company in this county the columns of this paper are open to him for that purpose.

The diamond State Company in this county the columns of this paper are open to him for that purpose.

This tory, science, spelling, distory, science, spelling; James Doughty, history, science, spelling, grammar, geography, history, science, spelling, grammar, geography, history, science, spelling, grammar, geography, history, science, spelling, grammar.

Grade VIII—Jeff Walter, science, arithmetic, Allen Selby, arithmetic arithmetic, Allen Selby, arithmetic captured by the columns of the patient and line of the patient and long the patie

tion for the betterment of the condition of the farmers and through them of the whole people, it is surely strange, if its members cannot get to gether and be willing to work together in a way to promote their best interests, regardless of the section from which they get their officers, if they will render them faithful and efficient service. Their officers, whoever they may select, will make mistakes, and a perfect organization is not to be expected at the start, but if its officers will keep in close touch with those of the Eastern Shore Pro with those of the Eastern Shore Pro duce Exchange and are willing to co operate with them in all things, they need not go very far wrong. One thing at least is certain, that our Maryland friends must forget their English, history. differences, if they hope for success in the operations of their Exchange.

A mass meeting of the Democrats of Accomac has been called by the Eudie Parks; second honor-Dorothy County Chairman at Onley on the 25th inst, and as it is a matter in which every democrat in the county is interested a full attendance is requested. The delegates to the State Convention are to be selected on that day and it is our duty to see that the men sent to that convention are friendly to the only fair system of making nominations. The caution is a proper one in view of the fact, that the enemies of the primary sys tem are industriously at work in every part of the State. Favoring as we do the primary there can b. no doubt of our duty not only to be present but to see that no man, un less he is known to he an exponent of the system, is sent to the State Convention.

The democrats of Indiana in con vention on Wednesday decided to send a delegation to St. Louis instructed for Judge Alton B. Parker, and this addition of thirty delegates to the Parker column places him in the lead of all other aspirants. The indications in fact from all sections of the country seem to be, that all who favor a Presidential candidate. who can win, are falling in line for him. It may be, that enough delegates will not be instructed for him to give him the nomination on the first ballot but the predictions are, that the favorite candidates of the different States will soon be dropped and enough of the votes will go to Judge Parker to make him the nomi nee of the party.

Injunction was gotten out by the pound net fishermen of Gloucester Point last week to stop the State Point last week to stop the State police steamer Rappahannock from pulling up trap stakes. The fishermen refused to pay the taxes, and the State steamer was ordered there to take up the nets, and had taken up four when the sheriff arrived with the injunction. The fishermen claim that the law is unconstitutional, and that they will take it to court.

Hon S. Gordon Cumming, of Bampton, has received a letter from Benator John W. Daniel which leads him to believe that the Senator would consent for his name to be placed on the Democratic ticket for the Vice-Presidency. Mr. Cumming says that the Virginia delegation will instruct for Daniel for the Presidency and that this will probably cause him to be nominated for the Vice Presi-dency.

The friends and admirers of Dr. J.
L. M. Curry will be glad to know that
Dr. E. C. Alderman, president of the
University of Louisville, will write his life and prepare his memoirs. Dr. Curry was one of the most beloved ministers of the South. His biographer is a distinguished educator.

Sir Henry M. Stanley, the African explorer, died in Loudon Tuesday.

A large car of Farm Wagons just come in. They are the best Wagons

JOHN W. TAYLOR, HALLWOOD, VA.

FAMILY FINANCIERING

They tell me you work for a dollar a day!

How is it you clothe your boys on such pay?

I know you will think it conceited and queer,
But I do it because I am a good financier

There's Pete, John and Jim, Joe, William and Ned,
A half dozen boys to be clothed and fed;
I buy for them all plain victuals to eat,
But clothes I buy only for our son Pete.

When Pete's clothes are too small for him to go on
My wife makes them over and gives them to John,
When for John who is ten they have grown out of date
She just make them over for Jim who is eight,
When for Jim they have become too ragged to fix,
She just makes them over for Bill who is six, They tell me you work for a dollar a day!

She just makes them over for Bill who is six.

And when for young Bill they will notlonger do,
She just makes them over for Ned who is two. So you see if I get the good clothing for Pete
The family is furnished with clothing complete,
But when Ned got through with the clothing and when
He has thrown them aside what do you do with them?

Why once more we go round the circle complete
And begin to use them for patches for Pete,
But where, dear friend, can you buy clothes that wear,
From Pete down to Ned without a rip or tear?

I go down to GLICK'S—his stock is the best,
He can suit the whole family, my wife and the rest.

GLICK'S.
